### Val di Fiemme, an international wellness destination (see listing of venues and activities)

The Trentino valley surrounded by the Violin Forests and the UNESCO Dolomites is the first area that is part of the World Wellness Weekend. Scheduled activities and events capable of creating a profound "agreement" between man and nature, in full harmony. It will be a wellness weekend that embraces rest, creativity, nutrition, movement, awareness, biodiversity and solidarity.

Stroll along the UNESCO landscapes between the sound of a horn, a thanksgiving dance in the sun, essences of the forest and flowery aperitifs. Kneipp paths in the stream, regenerating hay workshops, observations of the stars and moments dedicated to the care of horses, cows, goats and sheep.

Here are some moments of well-being organized by the Val di Fiemme Tourist Board from 17 to 19 September 2021, on the occasion of the World Wellness Weekend.

The international weekend opens with the inaugural Convention organized by local companies at the headquarters of the company that creates wellness ecosystems that accompanied the Val di Fiemme on this circuit: the Starpool in Ziano di Fiemme.

During the WWW the Namasté festival comes to life to meditate in nature. And on Sunday 19 September you can breathe the joy of the Fiemme senzAuto day of solidarity and eco-sustainability, where car traffic gives way to two wheels, quality of life and altruism.

Fiemme is the first territory to participate in the World Wellness Weekend (WWW), an international event that takes place simultaneously in more than 133 countries around the world on the third weekend of September, just before the Equinox, precisely in the symbolic period of balance between the day and the night. This international network promotes wellness as a lifestyle. It is both physical and mental well-being: a balance between soul and body that also draws energy from altruism and eco-sustainability.

"La Roccia Wellness Hotel", in Cavalese, will organize for the guests, a 3-day program based on **Heart & Breath Meditations**, lunch in a Km 0 mount-farm with bio-walking, Aura Soma experience, a Chakras-menu dinner and more..."

Val di Fiemme was chosen as a WWW destination because it is located between the UNESCO Dolomites and two natural parks (Paneveggio-Pale di S. Martino and Monte Corno), for its welcoming characteristics, for the numerous regeneration activities in nature and for the immense breath of its fir and larch forests.

Its 60 million trees are capable of capturing 2 million tons of CO<sub>2</sub>, as evidenced by the FSC certification obtained by the Magnifica Comunità di Fiemme which has managed forests and pastures since 1111, generating positive impacts on ecosystem services. Furthermore, Fiemme is known as the Valley of Harmony. In fact, the famous "Violin Forests" embrace its 9 municipalities, where the trees of music grow. These are the resonant spruce trees once favored by Stradivari and today by luthiers all over the world.

This appeared to be the ideal valley to re-establish a harmonious contact with nature. From spring to autumn Fiemme is an immense open-air SPA that invites you to regenerate through 70 guided experiences that put you back in motion by exploring, observing and meditating. The almost 300 voluntary associations active in the valley and promoters of sporting activities and solidarity actions make it the ideal place as a land of social well-being. Restaurants and hotels in Fiemme also participate in the WWW, offering genuine zero-kilometer menus and moments of well-being.

The first to adopt principles of eco-sustainability in Val di Fiemme are local companies, such as Starpool, an international reference company in the design and construction of wellness centers, such as Fiemme 3000, a company of bio-compatible floors treated only with essential oils to breathe the essences of the forest at home, such as the Felicetti pasta factory that mixes with spring water and dries pasta with the pure air of the Dolomites, as well as offering a line of Monograno pasta among the most genuine and tasty, or as La Sportiva, a world leader in the production of climbing shoes and high mountain boots that minimizes the environmental impact of its products by regularly publishing a sustainability report. It is also nice to know that 160,000 pianos created with Fiemme resonance spruce are playing in the world, thanks to the Ciresa di Tesero company that makes soundboards for musical instruments.

Val di Fiemme is also at the forefront to win the great challenge of recent years: producing clean energy. Its municipalities have strived to replace fossil fuels with renewable energy sources. To give an example, in Cavalese 80% of the town is heated by biomass from wood processing waste in the Bioenergia Fiemme district heating plant. FiemmePellet is produced with sawdust, a 0 km fuel marketed in the area. Finally, an essential oil used in cosmetics and in the wellness sector is obtained from the branches of the "magnificent" fir trees. Val di Fiemme is not content with being a gigantic green lung, but invests in new technologies for the development of the energy supply chain.

In addition to Cavalese, the towns of Predazzo, Bellamonte, Carano, Tesero and Ziano have also made innovative "green" choices. A sort of "district of renewables" has been created in the valley.

It's not all! Fiemme is among the first in the ranking of virtuous municipalities on separate waste collection.

In September, the Val di Fiemme reveals its profound nature for three days. In this land, well-being is not an hour to carve out between the hectic daily rushes, but a lifestyle that respects nature and draws inspiration from its rhythms, colors and scents.

**Live life "in your bathrobe"!** Lead by **Stéphane Huin** (Route des Villes d'Eaux & Accros du Peignoir), the French "Bathrobe Addicts" bring again their humour with off-beat activities **simultaneously in 18 thermal towns of the Massif central on Saturday at 11:03 am to be experienced in a bathrobe**: sophrology (on land and in water) , qi-gong, conscious walking. Yoga at the top of the highest point of the Massif Central, the Sancy (1.886 m). During this weekend of "European Heritage Days", the thermal heritage will be celebrated with guided tours mixed with relaxation sessions. For the more sporty and thrill-seeking, the "Accros du Peignoir" have even planned **zip-line and human catapult sessions... in bathrobe!**

**Alsace Destination Tourisme** has been actively working to develop the well-being of people living in and visiting Alsace. With breath-taking nature, rejuvenating forests, a network of sports and wellness practitioners, award-winning spas and numerous unusual accommodations, Alsace lives and breathes wellness as a destination. The Alsace tourist offices have set an enchanting program, from the **Vosges** mountains to the banks of the **Rhine**, to offer relaxation, reconnection and disconnection to visitors: walks and forest walks, awakening the senses in a House of Teas at the Gardens of Gaia, Qi Gong sessions in the vineyards before tasting Alsace's Grands Crus, a sound siesta and creative workshops in an old mill.

With the support of ANETT (association of 900 Mayors of touristic cities), the visitors bureau of **Montbrun les Bains** will organize on Saturday 18: a **guided tour of the medieval village** listed on the well-being and heritage alliance ; **outdoor yin yoga class with live acoustic music** at the **Verger des 3 Tilleuls** with Laurence Cordonnery ; a **tasting of organic and biodynamic wines** in the **O des Sources cellar**, initiation to **Shiatsu** with Martin Reid, a conference by Sylvie de la Savonnerie "Natural cosmetics" with vegetable oils and essential oils" locally produced... End your day with a **Night at Valvital spa**. On Sunday 19: discover traditional **Thai massage** in the practice room of Beffroi.

The city of **La Grande-Motte** will host a **yoga class (9am-10am) with a 70's music playlist**.

This year, **Catherine Sertin**, Founder of **Ecole Privée Catherine Sertin of Aesthetics** (EPCS), and WWW Ambassador (Beauty Institutes with ACNAIB & CIDESCO France, and Beauty Schools with FIEPPEC), will **"take care of health care-givers"** with **ACNAIB** beauty salons at the national level and the **Ereel** endowment fund. As the second line of responders, beauty students will perform beauty treatments on hospital healthcare workers (first line of responders).

**Isabelle Trombert**, founder of **L'Esprit A** and WWW Ambassador, will coordinate activities in 3 cities: Wellness Festival in **Briançon** (Outdoor massage, Yoga, DO IN self-massage workshops, and DIY workshops to create your own cosmetics using natural products) ; **Mulhouse** (sensory massage, yoga, sports coach, detox juices and a healthy menu) ; Belfort (Brunch & Spa, nail art workshop and a 4 kilometer family walk).
